Annual Meeting for the user community and researchers on March 14th

On Friday March the 14th the users of the output of the research of Circular Circuits will meet the researchers. In groups the Circular Circuits user community has the opportunity to ask questions about the research, and the researchers have the chance to get input on their research from daily practice.

Thematic meeting on Circularity of Metals

Delft, April the 8th: thematic meeting on the circularity of metals

This thematic meeting focusses on the circularity of metals; not only on recycling, but also on the quality of steel, business models, SME's and AI. It especially set up for industry as well as governmental organisations.

Thematic meeting on Aluminium

June 18th, 2025 Aluminium Thematic Meeting

Focus on the restrictive issues for the use of aluminium such as decarbonization, energy constraints, material scarcity, and rising costs. This event will focus on exploring opportunities to enhance innovative aluminium technologies and the ensuing products, and identifying options for support through collaborative initiatives with the academic sector.
